The increase in the Company's profit for the first half of 2026 is mainly attributable to the improved operating performance of certain core business segments, as well as non-recurring gains arising from government grants recognised during the period and the disposal of equity interests in certain subsidiaries, which together enhanced the Company's profitability and resulted in the increase in the Company's net profit attributable to the shareholders of the Company as compared with the corresponding period last year.

The estimated data set out above is only preliminary accounting data. The final financial data shall be subject to the 2026 interim report duly disclosed by the Company.

Shareholders and potential investors of the Company are advised to exercise caution when dealing in the securities of the Company.
